Upgrading Your K4/10 to a K4/100

Add the KPA4 100W Amplifier Module to a 10W K4

Visit https://youtu.be/xzc8hx2CmTc for the installation instructions video.

Parts List

- KPA4 PC Board Assembly with Heat Sink

- KPAIO4 Interface Board

- 5 pcs 4-40 Machine Screws with integrated lock washers

Procedure

1. Remove Top Cover. Unplug the Speaker Lead.

2. Remove PA Jumper.

3. Install KPAIO4 where PA Jumper was formerly located. Secure with a machine screw.

4. Plug in the KPA4. Secure with four (4) machine screws.

5. Reinstall Top Cover. Don't forget to plug in the Speaker connector!

6. Enable KPA4 in the Menu.
